

# MRS. HESTER OF COTTON BUYING SAYS SOON, SAYS HESTER, GUNS SLUMP ON "SCARE"

MASS. La. Oct. 21.—In prepared at the instance of the cotton exchange, Mrs. Hester, secretary of the exchange, said today that she expected the cotton market to be "scared" by the news of the recent fire at the New Orleans cotton exchange.

Further shrinkage has ceased, she said, and the market is now at hand, and the reaction may easily carry the year's consumption of lint cotton (or, say, exclusive of lint) to 13,000,000 bales. Whether it will be so, depends on a reversal of factors that are forcing the staple on purchasers at many cents below the cost of production and many more cents below its intrinsic value.

"There is nothing beyond the South beyond an unreasoning scare, cotton. Our institutions are solid, our banks are in splendid condition—better than ever known—and they have been made so by the people's money, resulting from the prosperity of the past few years. Their interests are the people's interests and we need not be forced to seek outside of our own country for the solving of our problems. The world wants our cotton, the like of which cannot be obtained elsewhere. The world wants our supply of lint cotton, our supplies, and a people who would throw overboard their products at less than cost, under existing conditions, would cause nothing but disaster to the world. We are not and never have been that kind."

Other speakers in the meeting will be basing the reluctance of Charles W. Hester, practically and Congressmen, except at the provided the fact which in the back from a constitute the great county in times ever taken place. With the many like period, in opening of the cotton market, the Democratic has cotton have literally building look overboard without and of the cotton. ## WOULD HAVE HUGE SHIPPING FLEET

Plans looking to the organization, by units, of a gigantic shipping corporation, with a capitalization of about \$200,000,000, for the purpose of placing in the river service a fleet of steamers to compete with rail-road transportation, were developed at the meeting of the Memphis Chamber of Commerce Wednesday afternoon.

The plans call for the immediate placing of two steamers between Memphis and Vicksburg, and two between Memphis and New Orleans. The purchase of the controlling interest in the Mississippi river for which purpose Wednesday's meeting was primarily called, is the first step toward the big shipping fleet. Other units will be added as business justifies.

Teams which will work the city in an effort to sell stock in the Kate Adams were announced as follows: Grain—J. L. Neasey, W. R. Smith, Vanis, B. L. Mallory and Jack W. Gates.

NEW YORK, Oct. 21.—Master of 12 languages, keenly interested in batting averages, but more devoted to the game of marbles, was played for keeps.

12-year-old Edward Rochie Hardy, Jr., son of Mr. and Mrs. Edward Rochie Hardy, of this city, yesterday qualified as the youngest freshman that ever entered Columbia university.

The youthful prodigy is five feet, three inches in height, weighs 143 pounds, and his mother said he is perfectly normal in appetite, habits and recreation. He spends a great deal of time in the University swimming when not engaged in reading Babylonian tablets, investigating the fourth dimension, or delving into other erudite subjects.

Edward started in school at the age of 2 and bounded over three classes a year, graduating from high school at 11. His popularity and modesty were proved by the fact that he was elected editor of his school newspaper and was a leader in school social activities.

Mill Stocks Shrink.

In other words, there was a shrinkage in mill stocks at home and abroad and in European supply of about 800,000 bales of lint cotton—vacuum that must and will be filled when the market is permitted to settle down to normal conditions.

In considering these figures we are dealing with the present, not with the past. The "scare" due to a large part to the scare of holders which have reacted upon consumers, unsettling both ends of the line, can not be overestimated; temporary and will hardly affect the year's consumption as a whole. The mills are quite as anxious as the producers for the resumption of normal trading in raw and manufactured goods, and it is long delayed. The remedy lies with the Southern producer and holder, who should be quite able to cope with the situation.

Last year I made the consumption in bales 12,750,000 bales, including 335,000 bales of lint, or 12,415,000 bales of lint cotton.

The agricultural department estimates this year's production of lint cotton, in round figures, at 12,100,000, or less than last year's consumption by 250,000.

The retail trade, which is the real foundation, is, we are told by the best authorities, proceeding on a nearly normal basis so far as volume is concerned, even if values in dollars have shrunk somewhat. Stocks are being constantly depleted and are approaching the time when replenishment becomes a necessity. Producers Need Confidence.

Confidence must be restored from the producers and the wave of buying orders for the replenishment of shelves awaits only a knowledge that the room is at the top and not at the bottom, that the danger of

## WHITE COMPARES CLAIMS OF G. O. P.

Says Estimates Are More Conservative Than With Hughes.

CHICAGO, Oct. 21.—Before leaving for New York for the final drive of the campaign, George White, chairman of the Democratic national committee, issued a statement discussing a recent claim of Will H. Hays, Republican national chairman, that Senator Harding would have 255 electoral votes.

"This is just ten electoral votes under the claims of Republican managers," said White. "Senator Harding would have 255 electoral votes, but the real estimate at Republican headquarters is 245."

"In that year the Republican managers claimed 409 votes for Mr. Hughes. He actually received 254, and President Wilson was re-elected, using the same simple arithmetic. Senator Harding will have no more than 244 electoral votes this year, which about coincides with the real estimate at Republican headquarters."

"Mr. Hays declares that in November the Republicans will carry all of the New England states, New York, New Jersey, Pennsylvania, Delaware, Maryland, West Virginia, Ohio, Michigan, Indiana, Kentucky, Wisconsin, Illinois, everything west of the Mississippi except Arkansas, Louisiana and Texas, and that they have a splendid chance to carry Tennessee and North Carolina. He thus graciously concedes South Carolina, Florida, Georgia, Alabama, Mississippi, Arkansas, Texas and Louisiana. Even these, however, are more than the two states, Utah and Vermont, which the Republicans divided then as now, succeeded in carrying in 1912."

## Col. Taylor Flays Gov. Roberts in Alexandria Speech

ALEXANDRIA, Tenn., Oct. 21. (Spl.)—Col. Alf Taylor, Republican nominee for governor, presented his claims here Wednesday afternoon to one of the biggest crowds assembled in Alexandria in years. The audience numbered at least 2,500, and represented five counties.

In his speech, Col. Taylor made the Roberts tax laws an especial target. He claimed every man connected with the present state administration as being a member of the greatest political machine ever cemented together in the history of the state.

Gov. Roberts was elected to uphold the law," the speaker said, "but in many instances showed utter disregard for law." He charged that Gov. Roberts had abused practically every trust imposed upon him. He reiterated that 16 members of the legislature now holding office through Roberts were appointed in violation of the constitution of the state.

At the conclusion of his speech, Col. Taylor was presented flowers. In receiving them, Col. Taylor paid high tribute to the women of the state. "Now that they have the vote," he said, "they should use it to rid the state of the money mad tax gatherers."
